

# The World Peace Organization for the One World Government

P.O. Box 4131, Brookings, OR 97415

November 9, 2017

Supreme Court of the United States  
1 First Street NE  
Washington DC, 20543

Your Honors:

Our organization is working to create an international government based on the U.S. Constitution and the principles of the cooperation of nature. Before our Constitution can be used as the basis for the international government, laws and practices that have caused chaos in our legal system must be purified to prevent the chaos from spreading onto the international level. One of our exempt purposes is to purify the U.S. legal system.

Misunderstandings have led to laws and practices that are based on the letter of the law rather than the intent of the law. Our legal system has three levels, not two. The three levels are the Principles, the Power and the Project—or in the case of our legal system, they are Universal Law, Constitutional Law, and Federal Law. When any law or practice is based on only the Power and the Project levels, it leads to the letter of the law rather than the intent, and it leads to chaos.

Universal Law is immutable, and fixes our nation's legal system on a very high level. It is where our unalienable rights come from, and it stands on the principles of Equality, Liberty, Freedom, Compassion, Abundance, Capacity and Tolerance. It applies to every atom in the Universe, and so it will be the basis for the international legal system. It is the only legal basis that can unify the entire planet.

Constitutional Law is the application of Universal Law within the United States, and it is evolutionary, but when Universal Law is omitted, laws are based on power games rather than principles, and our nation devolves. Laws and practices can be considered constitutional, and therefore lawful, but they are unlawful based on Universal Law. Foreign policy decisions that led to war is a prime example of this because the unalienable rights of citizens of other nations are disregarded, and then we face the backlashes from Universal Law of "do unto others as you would have them do unto you."

Federal Law must be based on both Universal Law and Constitutional Law or it leads to chaos. Federal law cannot supersede Universal Law. It cannot be used to justify denying any citizen of the United States, or even the entire planet, our unalienable rights to be able to live our lives we want without interference—meaning to fulfill our purposes in life-- and to be treated fairly and equally, and to have a voice in our government.

We have two plans to purify the U.S. legal system, and we will introduce a government proposal through two senators in the near future.

Yours for peace,

*Karen Holmes*
